# USER PERSONA

Understanding the needs, motivations, and challenges of our primary target user.

01 / PROFILE

|            |                    |
|------------|--------------------|
| Name       | Ahmed Khan         |
| Age        | 29 Years           |
| Occupation | Software Engineer  |
| Location   | Lahore, Pakistan   |
| Work Style | Full-Time Employee |

BIO

Ahmed works 9-10 hours daily as a software engineer. He wants to stay fit and maintain a healthy lifestyle but struggles to find time for exercise because of his demanding work schedule.

02 / GOALS

- Stay physically active
- Build healthy habits
- Lose excess weight
- Improve overall health
- Exercise consistently

KEY INSIGHT

Wants a simple and sustainable fitness routine that fits into a busy work schedule.

03 / MOTIVATIONS

- Better health
- More energy throughout the day
- Increased confidence
- Better work-life balance

KEY INSIGHT

Motivated by long-term health benefits and maintaining productivity at work.

04 / FRUSTRATIONS

- Long office hours
- Lack of time for gym visits
- Difficulty maintaining consistency
- Feeling tired after work

KEY INSIGHT

Time constraints and fatigue are the biggest barriers preventing regular exercise.

"I know fitness is important, but finding time after work is my biggest challenge."

# EMPATHY MAP – BUSY OFFICE PROFESSIONAL

Understanding the thoughts, feelings, behaviors, and environment of our target user.
